MAY IS...

SPEECH & HEARING MONTH

Each year, Speech-Language & Audiology Canada (SAC) dedicates the month of May to raising public awareness about communication health.

According to Statistics Canada 2021 Report: Hearing Health of Canadian Adults:

- 60% of Canadians ages 19 to 79 have a hearing health problem
- 40% of Canadians ages 20-39 experience Tinnitus
- Of 38% with hearing loss, 37% had Tinnitus

DID YOU KNOW?

The Speech & Hearing community acknowledged this month after the American Speech-Language-Hearing Association founded it in 1927.

SHARE THE LOVE OF LISTENING!

The CDC states, “early identification and intervention for hearing loss is important.

Many people live with unidentified hearing loss, often failing to realize that they are missing certain sounds and words. Checking one’s hearing is the first step toward addressing the issue.”

**BOVAIRD HEARING CLINIC CAME TO BE!
BUT- IT DIDN'T HAPPEN OVERNIGHT!**

We started with some steel beams
and glass details...

...and then some floors, laid down by our trusted
tile-layer-turned-Audiologist, Sherina Samuel herself!

**And slowly we started
branding!**

WE MADE IT LIKE HOME

A touch of home brought in by Sherina's mom, our beloved Premina!

...and we can't forget the kiddos artwork we've kept over the years, to remind us who's at home waiting for us!

Last but certainly not least...

THE HEART OF THE CLINIC TODAY

If you were blessed with the opportunity to meet Jeya, you would know he is the backbone of the clinic that still stands today. Jeya was the all-in-one man! He developed our accounting strategies still used today, lent his knowledge to the layout of the clinic, as well as helped shape the wonderful Sherina that we all love.

You may be lucky enough to run into Premina when she visits the clinic, but these days she's enjoying her grandkids and sharing her fan-favourite cooking!
